

MCE EV CHARGING

Supply Equipment Sticker Placements

“Powered By MCE” Stickers

Once your EV charging projects are completed, place a service level sticker at each station and port. Your choices are:

DEEP GREEN
100% Renewable Energy

OR

LIGHT GREEN
60% Renewable Energy

EVs are only as clean as the electricity that powers them. By opting up to Deep Green, you will deliver 100% renewable energy to your charging station.

“Station Funded By” Stickers

In addition to the “Powered By MCE” sticker, place a “Station Funded By” sticker on either the front or side of your charging station.

FOR A COST ESTIMATE ON OPTING UP TO DEEP GREEN, CONTACT:
